### **RECENT CASES WORKED ON**

**Storage Tanker (FSU)** oil theft investigation over many years  
**Adjusters** – professional advice on engine, boiler, hull, damage  
**Hull and Machinery (H&M)** damage survey, repairs and accounts  
**Super Yacht and Tanker** constructive total loss (CTL) assessments  
**Bulk Carrier** engine failure and slow steaming investigations  
**Shipyard Dispute** document review and expert advice / witness  
**Cement Carriage** document review / advice on cause and mitigation  
**Chemical, Container and Gas Tankers** – pre-purchase surveys  
**Container Vessel** repairer liability review of damage / advice  
**VLCC**, Owner's off-spec fuel investigation  
**Bulk Carrier Grounding** - Loss of Hire (LOH) survey / repair monitoring  
**P&I Survey** tanker, container, car carrier collision, flooding, grounding  
**JH2013 and JH143** – H&M shipyard, office and vessel audits  
**Super Yacht** - grounding / fire damage assessment  
**AHTS and Seismic Survey Vessels** – thruster, engine and winch failure  
**FPSO** – fire / management control investigation during refit  
**Bulk Carrier** - crane damage / non-performance  
**Expert witness** – crane non-performance / generator failure

Ieuan Dolby specializes in ascertaining the cause, nature and extent of marine casualties and in 'Hull and Machinery' damage surveys, repair monitoring and account reviews.

He is an expert in the analysis of complex maritime disputes and claims, either from the point of survey or as a cold case or document review: providing the necessary professional opinion.

Ieuan has acted as Expert Witness in Hong Kong, Singapore and Taiwan and he has immense knowledge of the shipyards and repair market in Asia and beyond.

As a qualified expert of marine engineering matters, Ieuan prides himself on his work, as summed-up in the recognized quality of his reports.

*"Thank you again for your huge contribution to our efforts"*

Tim Eyre, Legal Counsel, Noble Group Limited
